Education

Middlesex university
BA in animation & interactive media

A

Meta (previously Accusonus) - Senior UX designer

2021 - 2022

At Accusonus (now Meta), I designed and prototyped products from scratch. Moreover, I helped improve existing products.

Being part of a team with an ensemble of extraordinarily talented colleagues, lead us to wonderful results.

B

Microsoft (previously Softomotive) - Senior designer

2019 - 2021

Power Automate Desktop (included in Windows 11) is an automation building tool.

As the product's principal designer, I was sharing our user flows, wireframes and mockups with the stakeholders. I was also the one to "marry" our design system with Microsoft's Fluent, while attending to accessibility rules.

C

ContactPigeon - Lead product designer

2016 - 2019

As the lead product designer I was responsible for all phases of the UI/UX process.

Some of the adventures we dove in included the creation of an email editor, a popup editor and a push notification designer.

D

Ellinopoula - Product designer & front-end developer

2015 - 2016

Ellinopoula.com is a Greek language learning platform for kids available for PC, Android & iOS.

I was helping both product and marketing teams.

E

Sam media - UI designer & front-end developer

2011 - 2015

While at Sam media, a digital content provider in Amsterdam, I built hundreds of landing pages and set up many A/B tests for a variety of products.

F

LR Health & Beauty Systems - Designer & front-end developer

2010 - 2011

In collaboration with marketing I consistently designed and launched successful landing pages leading to hundreds of sales.
